1.4 Emergency relephone: U	JK- Emergency Telephone (0161)2316111
2. Hazards Identification	
2. Hazards identification	
2.1 Classification of the subs	tance or mixture
Classification: : Mixture	
Physical Hazards:- Not Classified	
-	
Health Hazards:- Skin Irrit 3 – H3	16
Elicitation – EUI	H 208
Environmental Hazards- Aquatic	Chronic 3 – H412
2.2 Label elements	
Pictogram	None
Circuit Instant	News
Signal word	None
Hazard statements	H313 May cause mild skin irritation
Hazaru statements	•
	EUH208 Contains Methylchloroisothiazolinone/ Methylisothiazolinone. May produce an
	allergic reaction.
	H320 Causes eye irritation
	H412- Harmful to aquatic life with long lasting effects
Precautionary statements	P102 Keep out of reach of children
riccautionaly statements	P102 Read label before use.
	P264 Wash exposed skin thoroughly after handling
	P273 Avoid release to the environment.
	P302 + P352. If on skin : Wash with plenty of soap and water
	P332 + P313 - If skin irritation occurs: Get medical advice / attention.

Aquatic Chro Skin Sens. 1	onic 1 – H410 – H317
SKIII SEIIS. 1	- 151/
The full te	ext for all Hazard Statements are Displayed in section 16
	Aid Measures
-	on of first aid measures
Inhalation:	Move the exposed person to fresh air at once. Rinse nose and mouth with water. Get medical attention if any discomfort continues.
Ingestion: seek	Rinse mouth out with water and drink copious amounts of water. Do not induce vomiting. If symptoms persist
-	medical advice.
	Remove affected person from source of contamination. Remove contaminated clothing. Wash the skin immediately with soap and water. Get medical attention if any discomfort continues.
Eye contact:	Remove victim immediately from source of exposure. Make sure to remove any contact lenses from the eyes before rinsing. Promptly wash eyes with plenty of water while lifting the eye lids. Continue to rinse for at least 15 minutes and get medical attention.
4.2. Most imp	ortant symptoms and effects, both acute and delayed
Inhalation: anticipated	Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure
Ingestion:	May cause mild stomach upset
	May cause skin sensitisation or allergic reactions in sensitive individuals May cause severe irritation to eyes.
Lyc contact.	
	of any immediate medical attention and special treatment needed
	idation given, but first aid may still be required in case of accidental exposure, inhalation or nis chemical. If in doubt, GET MEDICAL ATTENTION PROMPTLY!
ingestion of th	
5. Fire	Fighting Measures
F 1 Futinevial	
5.1. Extinguisł Extinguishing	-
	tinguishing media: Do not use water jet as an extinguisher, as this will spread the fire
5.2. Special ha Specific hazar	azards arising from the substance or mixture ds: No specific firefighting precautions applicable when small quantities are involved in the fire
-	mbustion products: Carbon dioxide (CO2). Carbon monoxide (CO). Nitrous gases(NOx). Oxides of sulphur
5.3. Advice for Protective eq of fire.	r firefighters uipment for fire-firefighters: Self-contained breathing apparatus and full protective clothing must be worn in case
6. Accie	dental Release Measures
	precautions, protective equipment and emergency procedures
reisonal prec	autions : Take care as floors and other surfaces may become slippery.

6.2. Environmental precautions Environmental precautions: Large Spillages - Do not discharge into drains or watercourses or onto the ground.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up: Take care as floors and other surfaces may become slippery. Large Spillages: Absorb spillage with suitable absorbent material. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13.

6.4. Reference to other sections

Reference to other sections: See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.

7. Handling and Storage

7.1. Precautions for safe handling

Usage precautions: Read and follow manufacturer's recommendations on label. Handle all packages and containers carefully to minimise spills. Keep container tightly sealed when not in use.

Advice on general occupational hygiene: Remove contaminated clothing and protective equipment before entering eating areas. Wash at the end of each work shift and before eating, smoking and using the toilet.

7.2. Conditions for safe storage, including any incompatibilities **Storage precautions :** Store in tightly-closed, original container. Store upright in a cool , safe place away from direct sunlight.

7.3. Specific end use(s) Specific end use(s): As stated in Section 1.2.

8. Exposure controls/ Personal Protection

8.1. Control parameters

Occupational exposure limits

Mixture does not contain any substances with declared occupational exposure limits

8.2. Exposure controls

Appropriate engineering

Provide adequate ventilation. Observe any occupational exposure limits for the product or ingredients.

Eye/face protection Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Personal protective equipment for eye and face protection should comply with European Standard EN166.

Hand protection

For users with sensitive skin, it is recommended that suitable protective gloves are worn.

Other skin and body protection

Wear appropriate clothing to prevent repeated or prolonged skin contact.

Hygiene measures

When using do not eat, drink or smoke. Wash hands thoroughly after handling. Wash at the end of each work shift and before eating, smoking and using the toilet.

Respiratory protection

If ventilation is inadequate, suitable respiratory protection must be worn.

Environmental exposure controls

Keep container tightly sealed when not in use. Provide adequate ventilation. Observe any occupational exposure limits for the product or ingredients.

9. Physical and Chemical Properties

Appearance:	Clear Liquid
Colour:	Yellow
Odour:	Lemon
Odour Threshold :	Not available.
pH:	5.5-6.5
Melting point :	~0°C
Initial boiling point and range :	102°C
Flash point:	Not available.
Evaporation rate:	Not available.
Evaporation factor:	Not available.
Flammability (solid, gas):	The product is not flammable.
Upper/lower flammability or ex	plosive limits: Not available.
Vapour pressure :	Not available.
Vapour density:	Not available.
Relative density:	0.99-1.01 @ 20°C
Bulk density:	Not available.
Solubility(ies):	Soluble in water.
Partition coefficient :	Not available.
Auto-ignition temperature:	Not available.
Decomposition Temperature:	Not available.
Viscosity:	Not available.
Explosive properties:	Not considered to be explosive.
Oxidising properties:	Does not meet the criteria for classification as oxidising.

9.2 Other Information **Other Information :**

No information required

10. Stability and Reactivity

10.1. Reactivity See the other subsections of this section for further details.

10.2. Chemical stability **Stability :** Stable at normal ambient temperatures and when used as recommended.

10.3. Possibility of hazardous reactionsNo specific material or group of materials is likely to react with the product to produce a hazardous situation.10.4. Conditions to avoidAvoid excessive heat for prolonged periods of time.

10.5. Incompatible materials **Materials to avoid:** No specific material or group of materials is likely to react with the product to produce a hazardous situation.

10.6. Hazardous decomposition products Does not decompose when used and stored as recommended.

11. Toxicological Information	
11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008	
Information given is based on data of the components and of similar products	
Acute toxicity - oral	
Based on available data the classification criteria are not met.	
Acute toxicity - dermal	
Based on available data the classification criteria are not met.	
Acute toxicity - inhalation	
Based on available data the classification criteria are not met.	
based on available data the classification chief a are not met.	
Skin corrosion/irritation	
Causes skin irritation	
Serious eye damage/ irritation	
Based on available data the classification criteria are not met.	
Respiratory sensitisation	
Based on available data the classification criteria are not met.	
Skin sensitisation	
May cause skin sensitisation or allergic reactions in sensitive individual.	
Germ cell mutagenicity	
Genotoxicity - in vitro	
Based on available data the classification criteria are not met.	
Carcinogenicity	
Based on available data the classification criteria are not met.	
Reproductive toxicity	
Reproductive toxicity - fertility	
Based on available data the classification criteria are not met.	
Reproductive toxicity - development	
Based on available data the classification criteria are not met.	
Specific target organ toxicity - single exposure	
STOT - single exposure	
Based on available data the classification criteria are not met.	
Specific target organ toxicity - repeated exposure	
STOT - repeated exposure	
Based on available data the classification criteria are not met.	
Aspiration hazard	
Based on available data the classification criteria are not met.	

Toxicological information on ingredients.

Quaternary ammonium compounds, benzyl-C12-16 (even numbered)-alkyldimethyl, chlorides

Acute toxicity - oral Acute toxicity oral (LD50 mg/kg) 344 Species Rat Raw material suppliers' information. Hazardous calculated

Acute toxicity - dermal Acute toxicity dermal (LD50 mg/kg) 3340 Species Rabbit Raw material suppliers' information. Hazardous calculated.

Alcohols, C12-13- branched and linear, ethoxylated (>= 2.5 EO)

Acute toxicity - oral Acute toxicity oral (LD50 mg/kg) >300<2000 Species Rat Raw material suppliers' information. Harmful if swallowed. ATE oral (mg/kg) 555.56

Acute toxicity - dermal Acute toxicity dermal (LD50 mg/kg) >2000 Based on available data the classification criteria are not met Species Rat

5-Chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-2H-isothiazol-3-one

Acute toxicity - oral

Acute toxicity oral (LD50 mg/kg) >2000 Based on available data the classification criteria are not met Species Rat

Acute toxicity - dermal

Acute toxicity dermal (LD50 mg/kg) >5000 Based on available data the classification criteria are not met Species Rat

Skin Corrosion/Irritation Causes sever skin burns and eye damage Serious eye damage/ irritation Cause serious eye damage Skin Sensitisation May cause an allergic skin reaction

11.2. Information on other hazards

No known endocrine disrupting effects

12. Ecological Information

12.1. Toxicity

Harmful to aquatic life with long lasting effects. Large or frequent spills may have an adverse effect on the environment

Ecological information on ingredients.

Quaternary ammonium compounds, benzyl-C12-16 (even numbered)-alkyldimethyl, chlorides
